

Lexicomp Hospital Solution

The Point-of-Care Drug Information Resource
for Pharmacists, Physicians and Nurses

Lexicomp® Online™ is the only hospital-wide solution offering multiple resources of drug information and clinical tools in a single easy-to-use interface.

Choose the most appropriate depth of drug information:

- Lexicomp provides clear, concise point-of-care drug information
- Facts & Comparisons® supplies hospital-relevant content
- AHFS offers a comprehensive research solution

Search multiple clinical databases including:

- Adult, Pediatric, and Geriatric drug information
- Diseases and Conditions in Harrison's Practice
- Infectious Diseases
- Lab Tests & Diagnostic Procedures

Access clinical support modules covering:

- Drug Interactions
- Drug Identification
- Medical Calculations
- I.V. Compatibility* (Trissel's™ 2 & King Guide)
- Patient Education (in up to 19 languages)
- Web Searching
- Poisoning & Toxicology

Discover the Lexicomp Advantage

Delivering Faster Answers to More Clinicians with Increased Efficiency

Did You Know?

Through your Lexicomp Online subscription, individual users can download Lexi-SELECT™ on a mobile device at no additional charge. Simply go to your Lexicomp Online home page for download instructions.

Step 1: Go to: <http://online.lexi.com/lco>

Step 2: Enter a drug name (brand or generic) in the "Search" box on the home screen and click on the **Search** button.

Step 3: The Search Results window will display every Lexicomp database containing a monograph for the search term entered. To review the full monograph, simply click the name of the drug in the database of interest. To go to specific information, hover over the drug name and select from the fly-out list of monograph sections that appears on the right.

Step 4: There are three ways to review the information. The first method is to click the downward pointing arrow in the "Jump To Field (Select Field Name)" window near the top of the page. The second method is to use the Navigation Tree view on the left side of the screen. The third method is to use the scroll bar on the right side of the screen.

Sample Searches

Search for:	Search Results	Overview
Coumadin	Lexi-Drugs Online	The most comprehensive drug database Lexicomp offers! Illustrates specialty drug information available in applicable drug monographs specific to: Anesthesiology-Critical Care, Cardiology, Dentistry, Mental Health, Nursing, and Oncology.
